A U.S. Coast Guard approval number will be assigned to the equipment when the production module has been completed and will appear on the production module certificate (module D, E or F), as allowed by the "Agreement between the United States of America and the EEA EFTA states on the mutual recognition of Certificates of Conformity for Marine Equipment" signed 17 October 2005.

The mark of conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-surveillance module (D, E or F) of Annex B of the MED is fully complied with and controlled by a written inspection agreement with a Notified Body. The product liability rests with the manufacturer or his representative in accordance with Directive 2014/90/EU.

This certificate is valid for equipment, which is conform to the approved type. The manufacturer shall inform DNV GL AS of any changes to the approved equipment. This certificate remains valid unless suspended, withdrawn, recalled or cancelled.

Should the specified regulations or standards be amended during the validity of this certificate, the product is to be re-approved before being placed on board a vessel to which the amended regulations or standards apply.

Product description

"A-60 Bulkhead, Steel with SeaRox SL 620"

Composed of structural steel bulkhead insulated on the unexposed side with minimum 60 mm thick mineral wool, type "SeaRox SL 620" (density 100-130 kg/m³) between the stiffeners and with minimum 25 mm thick the same insulation around the stiffeners.

The insulation is fixed to the bulkhead by means of standard Ø 3 mm pins in combination with min. 30 mm diameter steel clips (spring washers).

Distance between pins on stiffeners and pins on the bulkhead is approximately 300 mm.

For further details see reports and drawings listed under Type Examination documentation.

Application/Limitation

Approved for use as a vertical fire retarding division of class A-60.

The insulation materials and adhesives used have to be approved according to the Marine Equipment Directive and bear the Mark of Conformity. This requirement may also be applicable for surface materials used, if required by relevant rules and regulations.

Each product is to be supplied with its manual for installation and maintenance.
