TECHNICAL STATEMENT

Asbestos declaration – SOLAS regulation II-1/3-5

We hereby confirm that all products supplied by ROCKWOOL are asbestos free, this is valid for all currently produced products as well as products produced since ROCKWOOL started stone wool production in 1937.

Asbestos fibres are not added to the products, and in the unlikely event that raw materials should have been contaminated with small amounts of asbestos fibres; these will not survive the ROCKWOOL production process, where the stone is melted at 1500 °C /2700 °F.

This includes also the ROCKWOOL products marketed under the SeaRox and ProRox brands – the complete products including facing.

Kind regards

ROCKWOOL Technical Insulation

Søren Nyborg Rasmussen,

Senior Manager, Technical Service
